## Our Members, Our Community

Migrant workers and local citizen can make a good community and build up a new world; all individuals who have the same ideals are welcome to be the member of Osan migrant workers center. We are also looking for volunteers, for medical personnel, labor counselor and teachers for migrant workers.

As of now we are managing Dasom Green Shop. It is a recycling shop that helping unemployed citizen. We are helping them to have a job, and we are offering a cheap prize for second hand product for migrant workers. And if there is material that cannot sell any materials from the community the Green Shop can help.
